CMS Physics with Run2 data and prospects

Monday 28 January 2019 10:10 (40 minutes)

The LHC Run2 just ended with CMS recording almost 160 fb⁻¹ of data. I will discuss some of the most important achievements of CMS with the collected data and the physics program and prospects for the analysis of the complete dataset in the next 2 years.

Presenter: RAHATLOU, Shahram (Sapienza Universita e INFN, Roma I (IT))
