### **Session Program**

21-25 Jul 2019

# **CEC-ICMC 2019 - Abstracts, Timetable and Presentations**

## C2Po1A - Applications: Safety and Instrumentation II

Connecticut Convention Center, Level 6 Hartford, Connecticut USA

#### **Tuesday 23 July**

09:00

#### C2Po1A - Applications: Safety and Instrumentation II

Poster Session | Location: Level 6, Cryo Expo Exhibit Hall | Conveners: Robert Duckworth, Scott Courts

C2Po1A-02 [23]: Faliure modes, effects and criticality analysis of a 3kW@4.5K helium refrigerator

Speaker

Ms Yiwen Zong

C2Po1A-01 [24]: Effect of mass flow rate on gas propagation after vacuum break in a liquid helium cooled tube.

**Speaker** 

Nathaniel Garceau

C2Po1A-03 [22]: Experimental Study on Response of Split Stirling cooler to Mechanical Conditions under Non-rigid Contact Conditions

Speaker

Zheng Wang

C2Po1A-04 [21]: Analysis of freezing risk during LNG evaporation process

**Speakers** 

Ziemowit Malecha, Mr Arkadiusz Brenk

C2Po1A-06 [20]: Design optimization and Calibration of a void fraction measurement capacitance sensor for LN2 flow

Speaker

Mr Nagendra H.N.

C2Po1A-07 [19]: The FlexCryo: a new flexible solution for temperature control and temperature measurement down to 50 mK

Speaker

Anthony Attard

11:00
