

Session Program

21-25 Jul 2019

CEC-ICMC 2019 - Abstracts, Timetable and Presentations

C3Po1F - Large Scale Refrigeration and Liquefaction I

Connecticut Convention Center, Level 6
Hartford, Connecticut USA

Wednesday 24 July

09:00

C3Po1F - Large Scale Refrigeration and Liquefaction I

Poster Session | **Location:** Level 6, Cryo Expo Exhibit Hall | **Conveners:** Mr Renzhuo Wang, John Jurns

C3Po1F-06 [36]: Recent Progress on Cryogenic Fluid Systems

Speaker

Mr Lev Reznikov

C3Po1F-05 [35]: Cryogenic System for Shanghai Synchrotron Radiation Facility

Speaker

Barbier Anne

C3Po1F-04 [34]: Stability factor on the liquid helium temperature measurement

Speaker

Dr Shaoqi Yang

C3Po1F-02 [32]: Performance analysis of a new double stage compressor helium liquefaction cycle

Speaker

Huikun Su

C3Po1F-01 [31]: An update of dynamic thermal-hydraulic simulations of the JT-60SA Cryogenic system for preparing plasma operation

Speaker

Ms Sandra Varin

C3Po1F-03 [33]: Dynamic simulation of ITER cryogenic system under D-T operation

Speaker

Dr Ryuji Maekawa

11:00
