

Session Program

9-13 Sept 2019

**XLIX International Symposium on
Multiparticle Dynamics (ISMD2019)**

***Correlations and Fluctuations:Conveners:
Roman Pasechnik, Bill Llope***

Other Institutes
Santa Fe

Tuesday 10 September

10:40

Correlations and Fluctuations: Conveners: Roman Pasechnik, Bill Llope: II

Session | Location: Other Institutes, Santa Fe

10:40–11:05

Identified Particle Multiplicity fluctuations as a measure of deconfinement and hadronization in the QCD phase diagram

Speaker

Rene Bellwied

11:05–11:30

Measurements of $p_{\{T\}}$ -differential flow coefficients using multi-particle cumulants

Speaker

Vytautas Viskavicius

11:30–11:55

Fluctuations and clustering of multiplicities

Speaker

Maciej Rybczynski

11:55–12:20

Droplets of quark gluon plasma: small systems at RHIC

Speaker

Dr Ron Belmont

12:20
