

Session Program

30 October 2018

Day of Femtoscopy (A femtoszkópia napja)

Femtoscopy and other experiments at J-PARC, SPS, RHIC and LHC

EKU KRC, A (main) building , K floor, K-2.201 seminar room
H-3200 Gyöngyös, Mátrai út 36

Tuesday 30 October

15:35

Femtoscopy and other experiments at J-PARC, SPS, RHIC and LHC

Session | **Location:** EKV KRC, A (main) building, K floor, K-2.201 seminar room, H-3200 Gyöngyös, Mátrai út 36

15:35–15:55

Results and discussion of Bose-Einstein correlations in pPb from LHCb

Speakers

Mr Bartosz Piotr Malecki, Prof. Marcin Kucharczyk

15:55–16:15

New results from L3 using Levy-expansions

Speaker

Dr Wesley Metzger

16:15–16:35

Levy Bose-Einstein correlations and the search for the QCD Critical point in NA61 at CERN SPS

Speaker

Mr Barnabas Porfy

16:35–16:55

Status of Levy HBT measurement in PbPb at CMS

Speaker

Mr Péter Maller

16:55–17:15

Status of Levy HBT measurement in AuAu at STAR

Speaker

Mr Roland Pintér

17:15–17:35

Model-independent shape analysis of nearly Levy Bose-Einstein correlations and differential cross sections of elastic scattering

Speaker

Mr Andras Ster

17:55
