International Conference on
“Recent Issues in Nuclear & Particle Physics”
(RINP2)
FEBRUARY 3-5, 2019 Visva-Bharati, India

The main objective of the conference is to provide a common platform to discuss the recent issues in nuclear and particle physics, to set out possible future collaborative research works and to nail down some existing common problems. The conference will comprise of invited talks, oral and poster presentations.

The organizing committee welcomes submission of abstracts.

OPEN FOR REGISTRATION

Conference Topics
- Nuclear astrophysics
- Few body physics
- Exotic nuclear structure
- Nuclear reaction dynamics
- Symmetries and interactions in nuclei
- New facilities, instrumentation and techniques
- Application of nuclear data
- The standard solar model
- Neutrino physics
- Neutrinoless double beta decay
- Dark matter – present and future
- Nucleosynthesis, Cosmology
- EWSB, Higgs and BSM at LHC
- Heavy Flavor Physics

The registration fee will cover registration kits, refreshments, lunch, dinner and local transportation.

The registration fee details are as follows:
