

Session Program

3-5 Feb 2019

International Conference on Recent Issues in Nuclear and Particle Physics (RINP2)

Parallel Session Particle Physics

Lipika Auditorium, Visva-Bharati, Santiniketan
At the Lipika Auditorium and the Library Hall Department of Physics, Visva-Bharati University,
Santiniketan, West Bengal, India - 731 235

Tuesday 5 February

14:00

Parallel Session Particle Physics

Session |**Location:** Lipika Auditorium, Visva-Bharati, Santiniketan, At the Lipika Auditorium and the Library Hall Department of Physics, Visva-Bharati University, Santiniketan, West Bengal, India - 731 235

14:00-14:25

Stability in the Minimal Type-III Seesaw Model

Speaker

Najimuddin Khan

14:25-14:50

Two component WIMP-FIMP dark matter model with singlet fermion, scalar and pseudo scalar

Speaker

Ms Madhurima Pandey

14:50-15:10

Lepton polarization asymmetry in excited b-mesons

Speaker

Mrs PRIYA MAJI

15:10-15:30

A theoretical study of shape shifters on forth generation flavour - sterile neutrino

Speaker

Ms Janani M R

15:50
