Computer Security Update

Tuesday 26 March 2019 14:25 (25 minutes)

This presentation provides an update on the global security landscape since the last HEPiX meeting.It describes the main vectors of risks to and compromises in the academic community including lessons learnt, presents interesting recent attacks while providing recommendations on how to best protect ourselves. It also covers security risks management in general, as well as the security aspects of the current hot topics in computing and around computer security.

This talk is based on contributions and input from the CERN Computer Security Team.
