

**Session Program**

**13-15 Nov 2018**

**LHC EW Precision sub-group meeting**  
***QCD issues related to precision  $DY$***   
***measurements***

CERN, 4/3-006 - TH Conference Room

# Wednesday 14 November

10:00

## QCD issues related to precision DY measurements

**Session** | **Location:** CERN, 4/3-006 - TH Conference Room

10:00–10:30

### Update on W/Z pT predictions with Radish/NNLOJET

#### Speaker

Luca Rottoli

11:00–11:30

### Predictions of W/Z pT with DYTurbo

#### Speaker

Stefano Camarda

12:00–12:15

### Progress on W mass combination

#### Speaker

Nansi Andari

12:30

15:30

## QCD issues related to precision DY measurements

**Session** | **Location:** CERN, 4/3-006 - TH Conference Room

15:30–16:00

### Predictions of W/Z pT with Resbos2

#### Speaker

Joshua Isaacson

16:30–17:00

### Resummed calculations of W/Z pT with nuisance parameters

#### Speakers

Frank Tackmann, Frank Tackmann

17:30–17:45

### Introduction to benchmarking discussion (follow-up on earlier discussions on this topic)

#### Speaker

Alessandro Vicini

17:45–18:45

### Discussion: benchmarking calculations and MC predictions, uncertainty treatment, etc.

19:30
