

## **Session Program**

**10-12 Jul 2019**

# **International HiRadMat Workshop**

## ***Rare Isotope Beams***

CERN, 503/1-001 - Council Chamber

## Thursday 11 July

08:30

### **Rare Isotope Beams: Pushing the frontier of accelerator targets at TRIUMF**

**Session** | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Alexander Gottberg

09:00

09:00

### **Rare Isotope Beams: Charge strippers and target for Radioactive Ion Beam Factory (RIBF)**

**Session** | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Dr Hiroki Okuno

09:30

09:30

### **Rare Isotope Beams: Material Testing Demands by Heavy-Ion Pulsed Beams**

**Session** | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Helmut Weick

10:00

10:00

### **Rare Isotope Beams: Present and future pulsed proton beams at ISOLDE - Impact on target design and facility performance.**

**Session** | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Thierry Stora

10:30
