# Next Steps

Charlotte Jamieson  
STFC

# The issue

- It's complicated!

- Communication and collaboration

# Where have we got to

- Problem identified and well documented and sits well with SDG 3
- Articulate the vision
- Are we being disruptive enough?
- Identify what makes the proposed solution different from what is available
- Develop a roadmap to the vision

# What next

- Short note of the workshop
- Continued discussion between coordinating group
- Establish a small team to define the specification for discussion by the group

# Short term goals

- Establish a network
  - Share information
  - Coordinate activities
- Fix specification and develop a conceptual design
- Determine routes for financial support
- Articulate vision and roadmap

# Medium Term Goals

- Develop a technical design
- Build prototypes
