

Mono-h(bb): topical discussion

- Status:
 - Mono-h(bb) search @ ATLAS: [CONF note](#)
 - Mono-h(bb) search @ CMS: [PAS note](#)
- Motivation:
 - Non-trivial features and improvements in both analyses
- Use LHC DM WG as an informal **discussion forum**

- Happy to organise something similar for other signatures too!
 - Let us organisers know!

- **Format:**
 - Brief review of CMS analysis (Benedikt)
 - Brief review of ATLAS analysis (Philipp)
 - Informal discussion (you)
 - Theory input on Z' -2HDM model (Uli)
- Are 2h enough?
 - We'll see - and learn for the future ;)
