

Ramp: experience and issues, incl. MP

Tuesday, 19 January 2010 16:30 (25 minutes)

- Performance, observations, problems encountered
- Losses and transmission: extrapolation for higher intensities?
- Feed-forward vs. feedback: orbit, tune, chroma
- Setting incorporation for various systems: tune, chroma, ... RF, collimators
- Is related software sufficient, necessary improvements, appropriate for 3.5TeV running?

Author: VENTURINI DELSOLARO, Walter (CERN)

Presenter: VENTURINI DELSOLARO, Walter (CERN)

Session Classification: Session 3: Ramp & Squeeze & Adjust & Stable beam
