

FINAL PROJECT – MULTIVERSE THINKING APPLICATION

TEAM TXALAPARTA

CURRENT WORLD SITUATION

- *Labor:* **Abundant**
- *Habitable environment:* **Scarce**
- *Community:* **Scarce**
- *Freedom:* **Scarce**

FUTURE WORLD SITUATION

- Labor: Absent
- Habitable environment: Abundant
- Community: Abundant
- Freedom: Abundant

RESOLUTION TABLE OF “WHAT AFFECTS WHAT” – TABLE OF CONSEQUENCES

		Labor	Habitable Environments	Community	Freedom
Labor	· Increase	-----	Decrease	Increase	Increase
	· Decrease		Increase	Decrease	Decrease
Habitable Environments	· Increase	Decrease	-----	Decrease	Increase
	· Decrease	Increase		Increase	Decrease
Community	· Increase	Increase	Increase	-----	Decrease
	· Decrease	Decrease	Decrease		Increase
Freedom	· Increase	Decrease	Increase	Decrease	-----
	· Decrease	Increase	Decrease	Increase	

POLYDRON – GEOMETRIC 3D CONSTRUCTION

TECHNOLOGY - HEXLIFE

- ❖ Modular house – Walls, floors, rooms and more can be added
- ❖ Multiple houses can be joined together (Sharing and saving energy)
- ❖ “Origami” foldable house
- ❖ Can stick to any surface to maintain stability
- ❖ Solar panels as the house’s walls
- ❖ Piezoelectric tiles on the house’s floor
- ❖ House made out of intelligent materials

MODULAR HOUSE

A LOFT-LIKE HOME

CONNECTING HOUSES BETWEEN EACH OTHER

→ *Promote communities*

→ *Save/share energy between the houses*

“ORIGAMI” FOLDABLE HOUSE

ADHESIVE TO ANY SURFACE

From slug goo to glue

*Strong and stretchy
glue that can be used
on dry/wet surfaces*

SOLAR PANEL WALLS

PIEZOELECTRIC TILES

TIDAL ENERGY

FLEXIBLE MATERIALS

Rise of habitable environment efficiency

More freedom

Decrease of labor

Increase of communities / relationships

**SO, WHENEVER YOU WONDER HOW
WOULD THE HOUSE OF THE FUTURE LOOK
LIKE, THINK ABOUT...**

HEXLIFE

THANKS
FOR WATCHING
