Charged Kaon semi-leptonic form factors from NA48/2

Tuesday, September 10, 2019 2:00 PM (25 minutes)

The most precise measurement of the charged kaon semi-leptonic form factors obtained by NA48/2 with 4.4 million $Ke3$ and 2.3 million $K\mu3$ events collected in 2004 will be presented.

Author: CENCI, Patrizia (INFN Perugia (IT))

Presenter: LAMANNA, Gianluca (INFN e Laboratori Nazionali di Frascati (IT))

Session Classification: Semileptonic and 4 bodies kaon decays and CKM matrix
