## Rare kaon decays in general and recent results on $K \rightarrow \pi\pi$

*Thursday, September 12, 2019 8:45 AM (30 minutes)*

After a brief review of some theoretical aspects and difficulties related to the calculation of rare kaon decays in the SM, I describe recent work done in the particular case of the  $K \rightarrow \pi\pi$  decay

**Presenter:** KNECHT, Marc (CNRS)

**Session Classification:** Rare and forbidden Kaon decays - 1
