# Where & when?

- There will be a shuttle bus to the pit.
- Please meet at 18:35 outside building 39 (CERN hostel reception) -- map on next slide.
  - If you're late, we won't wait...
- Expecting to be back at CERN around 20:30, coming back by same shuttle bus.
- If going to the pit independently (e.g. by car), please be there by 18:55.

# Safety constraints

- We'll split into 3 groups of 12 visitors.
- Only 2 groups can be down in the cavern at a time.
- Visitors must wear shoes that have flat soles (e.g. no high heels) and that cover the whole foot (e.g. no sandals).
- Reminders: you'll need to go down in a (relatively) small lift; the underground cavern is an enclosed space; you must be medically fit to climb stairs.
- Please bring your CERN badge (if a CERN user) or your CERN visitor's badge that grants site access.
  - The LHCb conference badge is NOT enough.
