BESIII utilization of the Tianhe-2 supercomputer

Thursday, 7 November 2019 15:30 (15 minutes)

Supercomputer and other high performance computing resources can be useful supplements to the BESIII computing resources for simulation productions and data analysis. The supercomputer Tianhe-2 has ranked the No.1 on the Top500 certificate list for the sixth consecutive times during the year 2013 to 2015. This paper will describe the deployment singularity containers as well as the integration of local job submission system on the Tianhe-2 supercomputer in BESIII.
