

Session Program

10-12 Feb 2019

VBSCan@Ljubljana: Second In-person Meeting in the Second Grant Period

WG1 meeting

Ljubljana, Lecture room F-2
Ljubljana Faculty of Mathematics and Physics Jadranska cesta 19 <https://www.fmf.uni-lj.si/en/faculty/location/>

Monday 11 February

09:00

WG1 meeting

Session |

Location: Ljubljana, Lecture room F-2, Ljubljana Faculty of Mathematics and Physics Jadranska cesta 19 <https://www.fmf.uni-lj.si/en/faculty/location/> |

Conveners: Mathieu Pellen, Marco Zaro

09:00–09:30

Polarized WZ scattering at the LHC (on Vidyó)

Speaker

Giovanni Pelliccioli

09:30–10:00

Implications of Vector Boson Scattering Unitarity in Composite Higgs Models

Speaker

Diogo Buarque Franzosi

10:00–10:30

A MadGraph model for VBS based on a unitarized non-linear EChL analysis

Speaker

Dr Rafael Delgado

10:30

11:00

WG1 meeting

Session |

Location: Ljubljana, Lecture room F-2, Ljubljana Faculty of Mathematics and Physics Jadranska cesta 19 <https://www.fmf.uni-lj.si/en/faculty/location/>

11:00–11:30

NLO QCD and EW corrections to WZ scattering

Speaker

Christopher Schwan

11:30–12:00

Studies of Dimension-Six EFT effects in Vector Boson Scattering

Speakers

Raquel Gomez Ambrosio, Dr Raquel Gomez Ambrosio

12:00–12:30

Towards a global EFT fit (for top quark sector)

Speaker

Cen Zhang

12:30
