# Tuesday 17 September

14:30

## Applications: Oral # 7

Session | Location: NBTF Building

14:30-14:50

### Progress of the ITER Neutral Beam Test Facility project

**Speaker**

Vanni Toigo

14:50-15:30

### First year of operation of SPIDER, prototype source of ITER neutral beam injectors

**Speaker**

Dr Gianluigi Serianni

15:30-15:50

### Design of the first vacuum and low-pressure gas insulation tests for the MITICA 1 MV electrostatic Accelerator

**Speaker**

Dr Giuseppe Chitarin

15:50-16:10

### Surface coatings for arc prevention between plasma facing components

**Speaker**

Dr Luigi Cordaro

16:30
