

## **Session Program**

**7-12 Jul 2019**

## **21st International Workshop on Radiation Imaging Detectors**

***Dosimeters, Neutrons, chair: Ulrich Parzefall***

# Thursday 11 July

11:00

## Dosimeters, Neutrons, chair: Ulrich Parzefall

Session | Location:

### 11:00-11:15 Miniature Neutron Spectrometer for Space

**Speaker**

Dr Christos Papadimitropoulos

11:15-11:30

### Development of Depleted Monolithic Active Pixel Sensors (DMAPS) for Dosimetry in Space

**Speaker**

Prof. Charalambos Lambropoulos

11:30-11:45

### FIVE TRANSVERSAL BEAM PROFILE MONITORS FOR THE ESS COLD LINAC

**Speaker**

Francesca Belloni

11:45-12:00

### Study of small scale position-sensitive scintillator detector for gamma-ray spectroscopy

**Speaker**

Zhulieta Toneva

12:00-12:15

### Performance Evaluation of Multi-Array Plastic Scintillation Detector using Static and Dynamic Source Conditions

**Speaker**

Mr Bon Tack Koo

12:15-12:30

### Detailed analysis of quasi-ohmic contacts to high resistive GaAs:Cr structures

**Speaker**

Ms Anastasia Lozinskaya

12:30
