# Fifth Workshop on Accelerator Magnets in HTS WAMHTS-5

Lucio Rossi CERN – ARIES task 14.5 Coordinator  
Budapest , Hotel Mercure Korona, 11-12 April 2019

WAM

# Scope

- Discuss progress in HTS magnets for accelerator magnets
- Review progress of previous Eucard2 program (2 magnets still to be tested!)
- Review progress in understanding effects of cabling and current redistribution.
- To discuss simulation and design of N.I. coils (or other ideas)
- Exchange experience between various communities and reinforce collaboration
- No proceedings (papers) but slides available to community as usual (in case from Industry we may publish «revised slides»)
- Thanks to Soren Prestemon (LBNL), Gijs de Rijk and Luca Bottura (CERN) for helping in the Program Committee (as well as other colleagues for inputs!).  
And please apologise to whom we have not asked.

This project has received funding from the European Union's Horizon 2020 Research and Innovation programme under Grant Agreement No 730871.

WAM

# Thanks

- This workshop acknowledge the support of the ARIES Project
- Thanks to Valerie Brunner, CERN assistant for Aries and future accelerator EU projects, for the organization.
- Do not miss: dinner this evening:  
Meeting at 19.15 in the hotel lobby (dinner at 19.30)
