

# Zimányi School 2018

## Thursday 6 December 2018

### Phases of QCD - Bldg 3, Council room (16:40 - 18:50)

| time  | [id] title  | presenter                                 |
|-------|---|---|
| 16:40 | [63] Observation of the critical point in the phase diagram for QCD matter                      | LACEY, Roy Alphanso<br>LACEY, Roy         |
| 17:05 | [64] Search for the QCD critical point at RHIC  | BZDAK, Adam<br>BZDAK, Adam<br>BZDAK, Adam |
| 17:30 | [65] Finite Volume and Lifetime Effects on Secondary-Particle Spectra in Relativistic Collision | SAVCHUK, Oleg                             |
| 17:45 | [66] Highlights from NA61/SHINE: proton intermittency analysis                                  | PROKHOROVA, Daria                         |
| 18:00 | [67] Latest HADES results   | HARABASZ, Szymon<br>HARABASZ, Szymon      |
| 18:25 | [68] Phase Transition in Interacting Boson System at Finite Temperature                         | ANCHISHKIN, Dmitry<br>ANCHISHKIN, Dmitry  |
