

EP-DT Contribution to LHCb for LS2

- Calorimeter detector movements ECAL + HCAL on request during LS2
 - Upgrade of the calorimeter moving system (with LAPP Annecy)
 - New racks and pilot system (with LAPP Annecy)
- Recent request by Pascal Perret to give support for dismantling PS + SPD detectors + Lead shielding (with LAPP Annecy and RUS Institute) my involvement is not clear yet
 - Disconnection of power plugs
 - Emptying water cooling circuits
 - Dismantling of cables (cable chain and e-racks)
 - Dismantling of cable trays
 - Dismantling of modules with adequate tooling (have to be produced and assembled)
 - WPP preparation by Pascal Perret
 - https://indico.cern.ch/event/765844/attachments/1734348/2820146/LHCb_WS_WPP-CALO_-_Annex1_rev_V2.pptx
- All in accordance to the CERN safety rules !!!!!
- **Resources: estimated 0.2FTE of Robert in 2019**
