

# Inputs to European Strategy Update

J. Bielcikova, T. Davidek, M. Sumbera, M. Tasevsky

# Introduction (1)

- Previous European Strategy in Particle Physics was released in 2013, an update should be produced in 2020. European Strategy Group has been setup for that purpose
- Inputs are being collected already now
  - deadline for inputs from experiments/countries already tomorrow (18.12.2018)
  - open symposium discussing the inputs in Granada, May 2019
  - final meeting in Bad Honnef, Germany, in early 2020
- A joint CZ+SK meeting organized in September 2018
  - <https://indico.cern.ch/event/747246/>
  - talks reviewing our current and future activities in particle physics and related fields (astroparticle & nuclear physics) and discussion

## Introduction (2)

- A first draft of the Czech inputs has been prepared and discussed with former Czech ECFA/RECFA delegates
- Text has been circulated last week, several comments received (still to be accommodated into the final text)
