

14th "Trento" Workshop on Advanced Silicon Radiation Detectors

Tuesday 26 February 2019

Session 4: Technologies and Applications (1) - Aula Grande (09:00 - 10:40)

-Conveners: Sally Seidel

time	[id] title	presenter
09:00	[128] Timing performance of small cell 3D silicon detectors	KRAMBERGER, Gregor
09:20	[93] New beam test results of 3D pixel detectors constructed with poly-crystalline CVD diamond	KAGAN, Harris
09:40	[122] The development of a 3D detector on a hydrogenated amorphous silicon substrate	MENICHELLI, Mauro
10:00	[96] SiCILIA - Silicon Carbide detectors for nuclear physics and Applications	Dr TUDISCO, Salvo LA VIA, Francesco
10:20	[85] Development of gamma insensitive semiconductor based diagnostics to qualify intense thermal neutron fields at the e_LiBANS facility.	COSTA, Marco
