

Phenomenology 2019 Symposium

Tuesday, 7 May 2019

DM III - 205 (14:00 - 16:00)

-Conveners: Kuver Sinha

time	[id] title	presenter
14:00	[689] Discovering Galactic substructure with astrometric lensing using the power spectrum	MISHRA-SHARMA, Siddharth
14:15	[687] Estimating the local dark matter content using Gaia DR2	BUCH, Jatan
14:30	[809] Diversity in density profiles of SIDM satellite halos	WU, Chih-Liang
14:45	[661] Co-Interacting Dark Matter	LIU, Jia
15:00	[708] Shapes of Self-Interacting Dark Matter	PARIKH, Aditya
15:15	[721] Two natural scenarios for dark matter particles coexisting with supersymmetry	ALLEN, Roland
15:30	[764] Exploring the Neutrino-Dark Matter Connection	MURGUI GALVEZ, Clara
15:45	[756] Improved constraints on a simplified model of Majorana Dark matter	MOHAN, Kirtimaan
