

Phenomenology 2019 Symposium

Tuesday, 7 May 2019

Neutrinos II - 106 (14:00 - 16:00)

-Conveners: Bhupal Dev

| time | [id] title | presenter |
|-------|---|------------------------|
| 14:00 | [675] A new solution to the strong CP problem and the neutrino masses | Dr LIU, Da |
| 14:15 | [753] Vacuum Stability in Left-Right Symmetric Model | CHAUHAN, Garv |
| 14:30 | [740] Testing Left-Right Symmetry with trilepton channel | Mr LI, Haolin |
| 14:45 | [717] Heavy Neutrinos with Dynamic Jet Vetoes | RUIZ, Richard |
| 15:00 | [733] Probing the seesaw mechanism at the 250 GeV ILC | Prof. OKADA, Nobuchika |
| 15:15 | [766] Unraveling New Physics in the Lifetime Frontier | Dr CHAKDAR, Shreyashi |
| 15:30 | [805] Probing heavy neutrino mixing and CP violation at future hadron colliders | ZHANG, Yongchao |
| 15:45 | [691] Type-II seesaw scalar triplet model at a 100TeV pp collider | DU, Yong |
