

Phenomenology 2019 Symposium

Tuesday, 7 May 2019

Theoretical Developments - 209 (16:30 - 18:30)

-Conveners: Riccardo Penco

time	[id] title	presenter
16:30	[784] Scattering of Massive Spin-2 Particles at High Energies	Prof. CHIVUKULA, R. Sekhar
16:45	[692] Cancellations in Spin-2 KK Mode Scattering Amplitudes at High Energies	FOREN, Dennis
17:00	[795] Infrared Finiteness and Forward Scattering	HANNESDOTTIR, Hofie
17:15	[776] Effective Field Theory from On-shell Amplitude	XIAO, Minglei
17:30	[798] Reparametrization Invariance in SCET for Gravity	YUNESI, Arash
17:45	[856] Particle Decay in the Expanding Spacetime of Post-Inflationary Cosmology	HERRING, Nathan
18:00	[701] Detecting Magnetic Dark Matter	VERHAAREN, Christopher
18:15	[749] Consistency of Tachyacoustic Cosmology with de Sitter Swampland Conjectures	LIN, Wei-Chen
