

Phenomenology 2019 Symposium

Monday 6 May 2019

QCD & EW II - 209 (16:30 - 18:30)

-Conveners: Ciaran Williams

time	[id] title	presenter
16:30	[677] Anomalous Gauge Couplings from Diboson Production	LEWIS, Ian
16:45	[850] Electroweak physics with single and diboson final states at CMS	Dr CANDELISE, Vieri
17:00	[700] Observation and measurements of vector-boson scattering with ATLAS	TODT, Stefanie
17:15	[851] Electroweak physics with multibosons at CMS	CHANG, Philip
17:30	[713] Measurements of multiboson production using the ATLAS detector	ROLAND, Christophe Pol A
17:45	[852] ATLAS Searches for VV Resonances	LES, Robert
18:00	[853] Search for heavy resonances in diboson final states at CMS	MANTILLA SUAREZ, Cristina Ana
18:15	[854] Precision electroweak measurements with ATLAS	KWAN, Tony
