

Phenomenology 2019 Symposium

Monday, 6 May 2019

SUSY I - 207 (16:30 - 18:30)

-Conveners: Xerxes Tata

time	[id] title	presenter
16:30	[767] Increasing the Discovery Potential Using Rare SUSY Scenarios Part I: Gluinos	Prof. CARPENTER, Linda
16:45	[668] Inclusive searches for squarks and gluinos with the ATLAS detector	CARDILLO, Fabio
17:00	[695] Searches for direct pair production of third generation squarks with the ATLAS detector	YAMAZAKI, Tomohiro
17:15	[678] Searches for electroweak production of supersymmetric gauginos and sleptons with the ATLAS detector	Dr AYOUB, Mhamad Kassem
17:30	[676] Indirect Studies of Electroweakly Interacting Particles at 100 TeV Hadron Colliders	CHIGUSA, So
17:45	[688] Searches for supersymmetry in R-parity violating and long-lived signatures with the ATLAS detector	SCHAEFER, Leigh Catherine
18:00	[770] Constraining New Physics using Drell-Yan processes at the LHC	BANSAL, Saurabh
18:15	[837] Search for the compressed SUSY in stau-neutralino coannihilation region with a soft tau lepton and ISR jet	STARKO, Savanna Rae
