

# Phenomenology 2019 Symposium

## Monday, 6 May 2019

### Top - 105 (16:30 - 18:30)

-Conveners: Susanne Westhoff

time	[id] title	presenter
16:30	[738] Top-quark pair production cross-section measurements with the ATLAS detector	NEEP, Tom
16:45	[670] Top quark pair property measurements using the ATLAS detector at the LHC	LI, Boyang
17:00	[835] Measurements of $t\bar{t}$ pairs produced in association with electroweak gauge bosons using the ATLAS detector	MACDONALD, Calum Michael
17:15	[836] Search for heavy BSM particles coupling to third generation quarks at CMS	CORCODILOS, Lucas
17:30	[752] Off-shell single-top-quark production in the Standard Model Effective Field Theory	NEUMANN, Tobias
17:45	[773] Charming top decays with flavor changing Higgs boson and $\tau\tau$ at LHC	JAIN, Rishabh
18:00	[868] Probing perturbative QCD using electroweak bosons at ATLAS	BEAUCHEMIN, Pierre-Hugues
18:15	[860] .
