

# The Past, Present, and Future of Relativistic Heavy Ion Collisions

## Monday, 18 March 2019

**ALICE-USA: "Big Picture" - Open Session - Symposium guests and speakers are welcome to attend but it is not obligatory**

**(09:00 - 12:30)**

| time  | [id] title   | presenter               |
|-------|--|-------------------------|
| 09:00 | [8] Flow and correlations                                      | TIMMINS, Anthony Robert |
| 09:30 | [9] Charge dependent $v_1$ , global polarization, and CME      | VOLOSHIN, Sergei        |
| 10:00 | [10] Features of the crossover region in the QCD phase diagram | BELLWIED, Rene          |
| 10:30 | Lunch  |                         |
| 11:00 | [11] Lattice QCD: overview and perspective                     | RATTI, Claudia          |
| 11:50 | [12] Jet quenching - What's The Future?                        | JACOBS, Peter Martin    |
