

## MEDICIS-Promed

Our Marie Skłodowska-Curie innovative training network has trained 16 young researchers on projects along the chain of non-conventional isotope production, related accelerator techniques and research in medicine.

For the past four years, impressive scientific and technical results have been obtained throughout a network of universities, highly specialized companies and large university hospitals.

On top of the results that have already been reported along the years at different international conferences, patents of inventions and new and conclusive results will be presented in Erice at the final MEDICIS-Promed conference. This event will bring together a broad community of accelerator specialists, radioisotope scientists, biomedical researchers and medical doctors.

## Final Conference

The Final Conference on **MEDICIS-Promed and related science topics** will be held at

“The Ettore Majorana Foundation and Centre for Scientific Culture”

**Erice (Italy) 30<sup>th</sup> April - 4<sup>th</sup> May 2019**

## Scientific Topics

- Accelerator techniques for medical isotope production
- Devices and engineering for isotopes handling
- Methods for production of novel radioisotope in theranostics
- Radioisotope beams in hadron therapy
- Pre-clinical research and development of new radiopharmaceuticals

<http://medicis-promed.web.cern.ch>

## Conference important dates

- **First circular:** 23<sup>rd</sup> November 2018
- **Second Circular:** 21<sup>st</sup> December 2018
- **Deadline for Contributed Abstracts:** 28<sup>th</sup> February 2019
- **Notification of abstract acceptance:** 31<sup>st</sup> March 2019
- **Conference program:** available with the 2<sup>nd</sup> Circular
- **Start of registration and Hotel reservation:** 21<sup>st</sup> December 2018
- **Early Bird Registration fees deadline:** 15<sup>th</sup> March 2019

## Chairpersons:

- Dr. Thierry Stora, CERN
- Prof. John Prior, CHUV

## Local Organising Committee

- Prof. Thomas E. Cocolios, KU Leuven
- Mrs. Cristina Ferrari, CERN
- Prof. Klaus Wendt, Mainz University
- Dr. Ilyes Zahi, Advanced Accelerator Applications - Novartis
- Dr. Andrea Mairani, CNAO

## Conference Secretariat:

*Cristina Ferrari*  
*MEDICIS-Promed Administrative*  
*Assistant*  
*CERN*  
*CH 1211 Geneva 23 – Switzerland*  
*Office 26/1-035*  
*Phone: +41 22 7671356 (on Mondays*  
*and Thursday)*

## Venue

The conference will be held in Erice (Italy), an ancient town located at around 750 metres above sea level, on top of a mount overlooking the city of Trapani, on Sicily's north-western coast. The conference will be hosted by the [Ettore Majorana Foundation and Centre for Scientific Culture \(EMFCSC\)](#). Formally established in 1962, the Foundation is home to 128 international schools on various branches of science. Erice is served by the international airport of Palermo (PMO) and by the airport of Trapani (TPS). Transfer to/from Erice from/to both airports will be provided to the participants on their arrival/departure day.

## International Scientific Advisory Committee

- **Dr. Cathy Cutler** (Brookhaven National Laboratory, New York, USA)
- **Dr. Markus Brugger** (CERN, Geneva, EU)
- **Prof. Clemens Decristoforo**, (Medical University of Innsbruck, AT)
- **Dr. Ulli Köster** (ILL, Grenoble, FR)
- **Dr. Marco Durante** (GSI, Darmstadt, DE)
- **Prof. Wolfgang Weber** (Technical University of Munich, DE)
- **Dr. Koji Noda** (NIRS, Chiba, JP)
- **Prof. Philippe Lambin** (Maastricht University, NL)
- **Prof. Martin Walter** (HUG, Geneva, CH)
- **Prof. Ferid Haddad** (Arronax, Nantes, FR)
