

## **Session Program**

**29 April 2019 to 4 May 2019**

## **MEDICIS-Promed Final Conference**

### ***Lessons learned from recent targeted radiotherapy treatments***

Erice, Ettore Majorana Foundation

## Tuesday 30 April

09:30

### Lessons learned from recent targeted radiotherapy treatments

**Session** | **Location:** Erice, Ettore Majorana Foundation | **Conveners:** Thierry Stora, John Olivier Prior

09:30–10:00

#### Small molecule inhibitors for tumor imaging and therapy

##### Speaker

Prof. Uwe Haberkorn

10:00–10:30

#### Coffee break

10:30–11:00

#### Augmented and individualized radionuclide treatment (advances in PRRT / PRLT with a clinical focus on PSMA targeted radioligand therapy)

##### Speaker

Prof. Samer Ezziddin

11:00–11:20

#### Role of THIK-1 in glioblastoma multiforme progression

##### Speaker

Mrs Ioanna Prionisti

11:20–11:40

#### High resolution preclinical and humanTotal body molecular imaging as companion tools for theranostics

##### Speaker

Stefaan Vandenberghe

11:40–12:00

#### Determination of precision nuclear decay data for the decay of $^{153}\text{Gd}$

##### Speaker

Robert Shearman

12:00
