

Session Program

23-29 Jun 2019

EDS Blois 2019: The 18th Conference on Elastic and Diffractive Scattering

Session 2

ICISE
Quy Nhon, Vietnam

Monday 24 June

14:00

Session 2: Diffraction and Central Exclusive Production III / Elastic Scattering and Total Cross-Section I

Session | **Location:** ICISE, Quy Nhon, Vietnam | **Convener:** Peter John Bussey

14:00–14:25

Using photon collisions to search for dark matter

Speaker

Lydia Audrey Beresford

14:25–14:55

Searches for Dark Matter at the LHC in forward proton mode

Speaker

Dr Lucian Harland-Lang

14:55–15:20

Searching for odderon exchange in exclusive reactions with ϕ meson

Speaker

Prof. Antoni Szczurek

15:20–15:45

Result for Pomeron and Odderon parameter using IR regulators

Speaker

Dr Carlos Contreras

15:45–16:15

PPS results and prospects from CMS/TOTEM

Speakers

Justin Andrew Williams, CMS Collaboration

16:15

16:45

Session 2: Free Time at the Center

Session | **Location:** ICISE, Quy Nhon, Vietnam

16:45–17:15

Break

18:00
