

# EDS Blois 2019: The 18th Conference on Elastic and Diffractive Scattering

## Thursday 27 June 2019

### Session 6: 3D Structure of the Proton I (08:30-10:10)

**-Conveners: Liuti Simonetta**

time	[id] title	presenter
08:30	[50] Proton spin in 3D momentum space	SIGNORI, Andrea
08:55	[5] Overview of COMPASS results on spin	Dr QUARESMA, Marcia
09:20	[32] Recent Results of the RHIC Spin Program	QUINTERO, Amilkar
09:45	[35] Status and prospects of a future Electron-Ion Collider	FAZIO, Salvatore

### Session 6: 3D Structure of the Proton II (10:40-12:20)

**-Conveners: Mario Campanelli**

time	[id] title	presenter
10:40	[28] Gluon polarization measurements from longitudinally polarized proton-proton collisions at STAR	Dr CHANG, Zilong Dr CHANG, Zilong
11:05	[42] Quark transverse dynamics in hadrons from Lattice QCD	ENGELHARDT, Michael
11:30	[51] Generalized Parton Distributions and the Center for Nuclear Femtography	Prof. SIMONETTA, liuti
11:55	[6] Exclusive Drell-Yan for studying GPDs at J-PARC	CHANG, Wen-Chen
