

System performance paper

P. Franchini

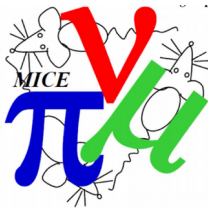

MICE VC #208
January, 10 2018

Status of the paper

- Nearly all the material has been provided
- PID could use some improvement
 - Include more variables
 - Performance of the PID
- Hydrogen absorber model
 - energy loss on LH2 to be included
- Will go through every single plot during the next workshop
- First draft in progress

Details

- First proof reading on Chris R. (thanks!)
- Referees: Alan B., Ludovico T.
- Repository: <https://github.com/pfranchini/MICE-systems-performance-paper>
- Few more details:
