

Quark Matter 2019 - the XXVIIIth International Conference on Ultra-relativistic Nucleus-Nucleus Collisions

Tuesday, 5 November 2019

Parallel Session - Heavy flavor II - Ball Room 3 (14:00 - 16:00)

-Conveners: Boris Hippolyte

time	[id] title	presenter
14:00	[141] Quarkonium production in Pb+Pb collisions with ATLAS	LEE FOR THE ATLAS COLLABORATION, Songkyo
14:20	[189] Quarkonium production in nucleus-nucleus collisions with ALICE	BAI FOR ALICE COLLABORATION, Xiaozhi
14:40	[804] Heavy quark diffusion coefficients and thermal quarkonium mass shifts from lattice QCD	KACZMAREK, Olaf
15:00	[557] Recent Measurements of Heavy Quarkonium Production in p+Au and p+p Collisions at STAR	LIU FOR THE STAR COLLABORATION, Yanfang
15:20	[620] PHENIX J/ψ measurements in $p+Al$, $p+Au$, and ^3He+Au collisions	SMITH FOR THE PHENIX COLLABORATION, Krista
15:40	[160] Flavor hierarchy of jet quenching in relativistic heavy-ion collisions	XING, Wen-Jing
