

# (Re)interpreting the results of new physics searches at the LHC

## Thursday, 4 April 2019

### Session 4 - LT2 (10:00 - 13:20)

-Conveners: Jonathan Butterworth

| time  | [id] title   | presenter                |
|-------|--|--------------------------|
| 10:00 | [1] Reinterpreting Z's for RK(*)   | Prof. ALLANACH, Benjamin |
| 10:25 | [39] Prompt and long-lived re-interpretations in Left-Right theory         | NEMEVSEK, Miha           |
| 10:50 | [28] New Developments in TopFitter   | Dr GALLER, Peter         |
| 11:15 | [29] Discussion  |                          |
| 11:30 | Coffee Break   |                          |
| 11:50 | [11] Global SMEFT fit to Higgs and Electroweak observables                 | Prof. SANZ, Veronica     |
| 12:15 | [16] Constraining EFT parameters with Higgs measurements                   | HAYS, Chris              |
| 12:40 | [36] New techniques to directly extract Wilson coefficients from the data. | MAURI, Andrea            |
| 13:05 | [32] Discussion  |                          |
