Entrepreneurship Meet-Up (EM-U)

Tuesday 30 July 2019 18:00 (1 hour)

Meet the entrepreneurship network at CERN! Every other week we host Entrepreneurship Meet-Ups where people interested in entrepreneurship meet, listen to an interesting presentation, and continue the discussions over some refreshments. This week, we have Ambica from Entrepreneur First presenting for us.

Entrepreneur First invests time and money in individuals and help them launch a deep-tech company from scratch. Learn about their experience in what makes a good team and why the team is crucial in a start-up.

Afterwards, we continue the discussions over pizzas and beer.
