

WELCOME

*5th International Workshop on
Nucleon Structure at Large Bjorken x*

Hi 2019

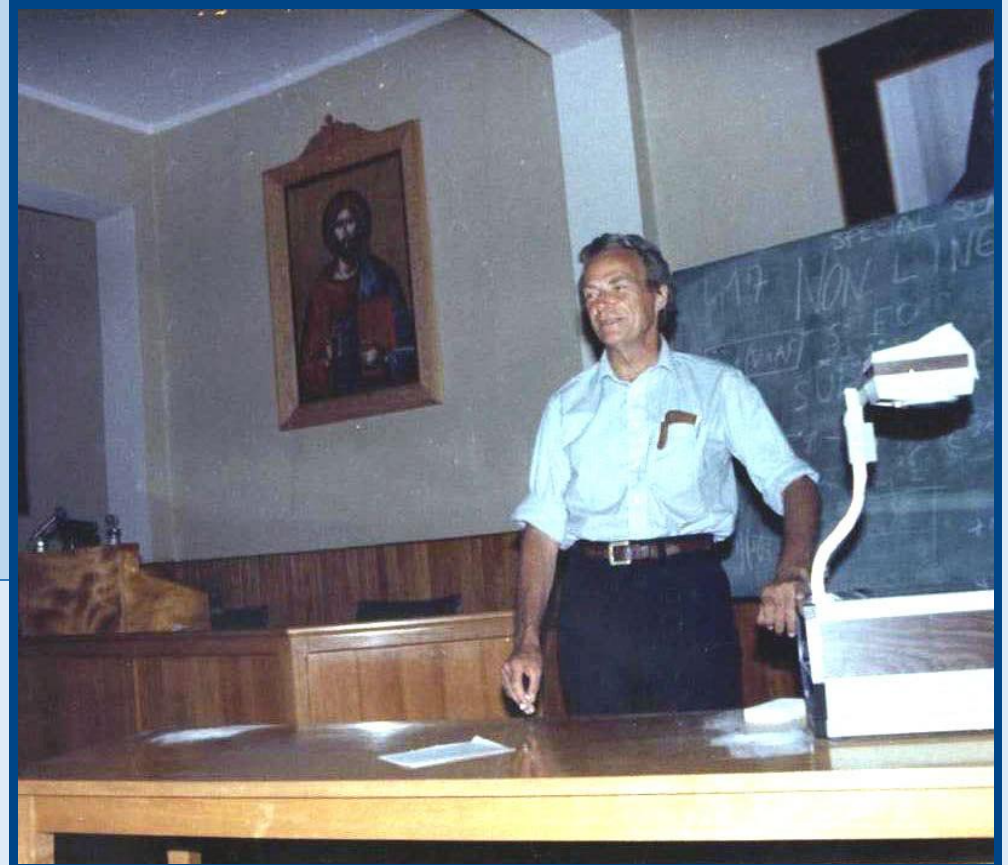

*Kolympari, Crete
August 16 - 21 2019*

The OAC Conference Center

The Orthodox Academy of Crete (OAC) has long been a place for conferences and meetings in Physics, Biology, Medicine, Genetics, Biotechnology with scientists like Kenneth Wilson (1977), Richard Feynman (1980), Stephen Hawking (1998), and many other world wide experts having attended them.

We knew very little about the OAC.....

It was not until 2015 when we were invited to the 4th ICNFP conference that we had the opportunity to visit the area.

The Orthodox Academy of Crete (OAC) has long been a place for conferences and meetings in Physics, Biology, Medicine, Genetics, Biotechnology with scientists like Kenneth Wilson (1977), Richard Feynman (1980), Stephen Hawking (1998), and many other world wide experts having attended them.

We knew very little about the OAC.....

It was not until 2015 when we were invited to the 4th ICNFP conference that we had the opportunity to visit the area.

But we almost did not make it!

..... had it not been for the kindness of a certain individual...

An individual who personified the Cretan kindheartedness and utmost sense of hospitality.

Not only did he accept in his hotel two grumpy physicists and a senior cat, but he also showed us by example what being a Cretan is!

Crete is truly a very special island!

Michael Christodoulakis

In the words of Ms. Stephen Hawking:

“... The conference itself has been excellent and has provided many discussions and stimulated ideas for Stephen.

*The Academy is a wonderful institution and has lent its special effect in the 5 days spent here....”**

We hope that the time spent here will also have this special effect on all!
After all, one of the main purposes of the Academy is to do exactly that!

Thank you for coming!
