

# **Photon-induced processes: convergence between HORACE and MC-SANC estimates of their impact on Z lineshape and AFB**

*Thursday 4 April 2019 12:30 (20 minutes)*

**Presenters:** VICINI, Alessandro (Università degli Studi e INFN Milano (IT)); BONDARENKO, Serge (Joint Institute for Nuclear Research (RU))

**Session Classification:** QED/EW corrections relevant for weak mixing angle measurements and how to properly include LHC measurements of  $m_W$  and  $s_2^{\text{weff}}$  in global EW fits
