

Session Program

1-4 Jul 2019

Rencontres QGP France 2019

***Soft particle production and QCD phase
diagram***

Étretat, Dormy House
Route du Havre, 76790 Étretat

Monday 1 July

17:25

Soft particle production and QCD phase diagram

Session | **Location:** Etretat, Dormy House, Route du Havre, 76790 Étretat

17:25-17:55

Exploring the partonic phase at finite chemical potential within heavy-ion collisions

Speaker

Pierre Moreau

17:55-18:25

Phases transitions of quark matter at high density and temperature

Speaker

Hubert Hansen

18:25-18:55

Phase diagram of QCD-like matter from exotic PNJL model

Speaker

David Fuseau

18:55

Tuesday 2 July

11:00

Soft particle production and QCD phase diagram

Session | **Location:** Etretat, Dormy House, Route du Havre, 76790 Étretat

11:00–11:30 **Chemical freeze-out conditions from strangeness observables**

Speaker

Marcus Bluhm

11:30–12:00 **Initial fluctuations and anisotropies in heavy-ion collisions**

Speaker

Cyrille Marquet

12:00–12:30 **Measurement of centrality at LHCb**

Speaker

Felipe Andres Garcia Rosales

12:30
