

**Session Program**

**25-28 Mar 2019**

**Gamma Factory meeting - CERN**

***PoP experiment, cont.***

CERN, 60/6-015 - Room Georges Charpak (Room F)

# Thursday 28 March

09:00

## PoP experiment, cont.

**Session** | **Location:** CERN, 60/6-015 - Room Georges Charpak (Room F) | **Conveners:**  
Yann Dutheil, Brennan Goddard

09:00–09:40

### Laser system(s) for single bunch and bunch train (cavity) “cooling proof” options.

#### Speakers

Dr Kevin CASSOU, Kevin Cassou

#### Location

CERN, 60/6-015 - Room Georges Charpak (Room F)

09:40–10:00

### Laser system for single bunch, “photon production” option.

#### Speaker

Stephen Gibson

#### Location

CERN, 60/6-015 - Room Georges Charpak (Room F)

10:00–10:40

### Radiation aspects.

#### Speaker

Ruben Garcia Alia

#### Location

CERN, 60/6-015 - Room Georges Charpak (Room F)

10:40–11:10

### Coffee break

11:10–11:50

### SPS-RF - Timing and synchronization.

#### Speaker

Wolfgang Hofle

#### Location

CERN, 60/6-015 - Room Georges Charpak (Room F)

11:50–12:30

### Photon detection system(s) - photon production and beam cooling observation functions.

#### Speaker

Thibaut Lefevre

#### Location

CERN, 60/6-015 - Room Georges Charpak (Room F)

12:30–13:00

### Experiment Layout and schedule

#### Speaker

Brennan Goddard

#### Location

CERN, 60/6-015 - Room Georges Charpak (Room F)

13:00
