

Welcome to NICA days 2019 and IVth MPD Collaboration Meeting in Warsaw

Contribution ID: 74

Type: **not specified**

Full MPD Ecal. Data Base

Wednesday 23 October 2019 15:00 (20 minutes)

The report describes a database being developed to store a large amount of information about the electromagnetic calorimeter of MPD. A brief description of the manufacture of calorimeter modules is given. The advantages of using the database during the creation and operation of the electromagnetic calorimeter are shown.
