

Welcome to NICA days 2019 and IVth MPD Collaboration Meeting in Warsaw

Tuesday, 22 October 2019

MPD/NA61 Joint Session - Conference room... (14:00 - 18:00)

time	[id] title	presenter
14:00	[80] Particle production properties at SPS energy range - recent results from NA61/SHINE experiment.	PULAWSKI, Szymon Mateusz
14:25	[87] Fluctuations and correlations study at NA61/SHINE	PROKHOROVA, Daria
14:50	[121] Open charm measurements plans in NA61/SHINE experiment at the CERN SPS	STASZEL, Pawel Piotr
15:10	[18] NA61/SHINE detector upgrade	TEFELSKI, Dariusz
15:35	[114] ALICE technologies proposed for the VD of NA61/SHINE in connection to the future MPD Si tracker	FEOFILOV, Grigori
15:55	Coffee break	
16:20	[63] Upgrade of the NA61/SHINE ToF system based on a MRPCs for the NICA experiments	Mr DMITRIEV, Aleksandr
16:45	[31] Synergy in the development of forward hadron calorimeters for NA61, BM@N, MPD and CBM experiments	GUBER, Fedor
17:05	[112] Non-standard GEM foils for gaseous detectors	KUICH, Magdalena
17:25	[81] Convolutional neural network for centrality determination in fixed target experiments	UZHVA, Denis
