

Electrical drawing software comparison:

SEE Electrical Expert V4R2 4.46

versus

elecworks 2019 SP1

SEE Electrical Expert

- **PROS:**

- Large library of electrical symbols
- Drawing easy to modify (automatic rewiring when a symbol is moved)
- Automatic and easy generation of connectors, terminals...

- **CONS:**

- Not intuitive software → training necessary
- Old interface, not intuitive
- Difficult integration of PLC cards
- Some bugs (languages management by example)

elecworks

- **PROS:**

- Interface modern and intuitive
- Drawing quick and easy
- Automatic integration of PLC cards

- **CONS:**

- Lack of symbols in the library
- Slow library update. Authentication required every time
- Difficult to move a symbol already connected
