

# EN-CV Electrical design software

## ✓ EN-CV

- ✓ Required software is Elecworks or Eplan P8 for all projects. (hundreds of electrical diagrams, tens of thousands of folios)
- ✓ The software is purchased by the contractors.
- ✓ EN-CV usage:
  - ✓ Verification of source files provided by contractors.
  - ✓ Minor modifications of existing electrical drawings.
  - ✓ Creation of typical drawings.
  - ✓ Creation of minor electrical drawings in specific cases.

## ✓ SEE Electrical

- ✓ Not used by EN-CV.

## ✓ Elecworks

- ✓ Used 1-2 times per month.
- ✓ Pros: Easy to use.
- ✓ Cons: Less features than Eplan P8, but has the features we need.

## ✓ Eplan P8

- ✓ Used 1-2 times per week.
- ✓ Pros: Good technical support.
- ✓ Cons: Difficult to get started with due to the many features( a good product anyway).
