

## Space-time model for colour reconnection in Herwig7.

*Monday, 24 June 2019 09:50 (20 minutes)*

The idea behind the space-time colour reconnection is to use the space-time distance between the partons to construct a colour reconnection model. We will describe how the space-time picture is incorporated into Herwig 7 and show the first results of a space-time CR model.
